

90-Day Marketing Plan *at a glance*

Win Google AI Overviews, dominate long-tail commercial search across India's EV charging landscape, and convert the resulting traffic — backed by founder-led trust signals and a programmatic content moat.

THE FOUR PILLARS

- 01

SEO + GEO content for AIOs
Answer-first, citable, schema-rich. Engineered to be quoted by Google AIO, Perplexity, ChatGPT, and Gemini.
- 02

Content-based SEO depth
Entity coverage, topic clusters, hub-and-spoke linking. Every page earns its rank.
- 03

Conversational tone for NLP
Natural-language, Q&A scaffolding. Reads like a human, parses like a machine.
- 04

AEO trust signals
Real bylines, original photography, first-party data, expert quotes. Defeats AI-spam classifiers.

THREE-MONTH ROADMAP

Month 01 Foundation & Audit • Technical SEO + content audit • City × Charger × Use-case grid • CRO funnel + heatmap audit • AEO/GEO visibility baseline • Founder & social diagnostics • Tracking dashboard live
--

90-DAY TARGETS

Organic Sessions	+40–70%
Indexed Long-tail Pages	60–80
AIO Citations	15+ /mo
Conversion Rate Lift	+10–20%
